Subject: Public Notice of Hearing and Vote - Resolution 2038

RECEIVED

OCT 30 2007

Ravalli County Commissioners

--	--	--	--	--

We are writing to oppose extension of Resolution 2038.

The language of the resolution does not allow exemptions. The standards for variance are another expense and confusing, non- applicable hoop to jump through. We oppose the extension of Resolution 2038 because the language is applied to the whole county instead of areas within certain miles of a city, and because the language of the resolution does not allow for "exemptions" where no new buildings would be erected, water and air quality would not be affected, and there would be no additional traffic etc etc.

Our specific situation is a 2 acre lot, within a current subdivision, that was approved by the State in the 1980's for two separate homes. This two acre lot has an imaginary dividing line providing one acre for each home and each home has its own septic, well, power source, mail address etc. It is imperative these two homes be allowed to be officially subdivided to resolve family conflicts.

Sincerely,

Ardyce Kelley, 9309 County Road 433, New Bloomfield, MO 65063
Betty Frost, 220 Camas Creek Lp., Hamilton, MT 59840
